FOR IMMEDIATE RELEASE

NEW PAVING COMING TO INTERSTATE 80 NEAR DAVIS AND DIXON Follow Lane Closure Information on Twitter

Solano County – The California Department of Transportation, Caltrans, will begin a \$13 million paving project that will include the resurfacing of I-80 from just west of the Pedrick Road Overcrossing outside of Dixon up to the Yolo County line near Davis. This project will also repave the ramps connecting Interstate 80 to State Route 113 up to the Yolo County line. Work is scheduled to begin the week of August 2, 2010 and is scheduled to be completed by the end of 2010, weather permitting.

In order to complete this work, nighttime lane and ramp closures will be necessary. Motorists can expect the majority of the work to take place between 7:00 p.m. and 6:00 a.m. seven days per week. Signs notifying motorists of closures and detours will be posted to guide traffic during construction. Residents may experience some noise at night from the construction equipment.

Motorists and residents can keep informed about upcoming lane and ramp closures on all of Interstate 80 in Solano County by visiting www.pave80.com or by following the projects on twitter @pave80.
